

# Develop Exponential Power: Stop Chasing It And Let It Chase You

What if everything you know about Power is wrong? This book will shake your foundations and beliefs about what power is and what it isn't. It is revolutionary at its core and at the bleeding edge in the strictest sense. What if everything you needed to succeed was available to you right now? A common notion is that Power is only available AFTER we have achieved and AFTER we have become successful. The truth however is that Power is available to you right now and it is this Power that will make your success not just possible but inevitable. Borrowing a phrase from Kafka, it will roll in ecstasy at your feet. Such is *Develop Exponential Power*. After each chapter, there is an exercise for the power principle presented so what you are learning is not just idle knowledge its instant application so you can make it a habit, something you don't have to think about twice and instead comes naturally. Each chapter is designed with the busy person in mind and can be read as a stand alone. Each chapter has the capacity of strengthening that powerful inner YOU while busting your assumptions and shattering so-called reality into smithereens ever so gently, or harshly, not depending on how you take the bullet or how well-fortified your shield. The book may come across as having an air of intimidation with its WARNING: If you are only looking for single digit growth, this book may not be for you. And, journeying through the 28-power principles, you'll learn that more than a come on, it's a precious gift of self-awareness and an invitation to rapid self-expansion. In this book you will discover what has made great people great but also how you can have access to that same greatness right here and right now. This book is about humanity what connects us all beneath our capes, bandages and colors. Want to know what you really need to achieve your dreams and

master your destiny? Read this book! And here is what Marshall Goldsmith says about the book: 3) Leaders need new, innovative ways of solving problems and finding successful solutions. Develop Exponential Power demonstrates how to combine timeless elements trust, presence, vision, among others to reach new heights of achievement. Thank you, Bjorn Martinoff, for your insight and accessible road-map! Marshall Goldsmith the Thinkers50 Award Winner (sponsored by Harvard Business Review) for Most-Influential Leadership Thinker in the World
