

A Brazilian Mystic, Being the Life and Miracles of Antonio Conselheiro (Classic Reprint)

Santos, and as I read and mused upon the tale, the letter from the President came back into my mind. The events all happened in the wild region known as the Sertao, lying between the States of Pernambuco and Bahia, unknown, I take it, geographically, to ninety-nine percent, of educated men. The followers of Antonio Conselheiro were, almost to a man, what are known as Jagunos, a term invented for the most prominent of the cattle men who live in the Sertao, and signifying something between a bully and a fighting-cock, and by degrees applied to all of them, as the term Gaucho is in Argentina, Guaso in Chile, and Llanero in the vast, grassy plains upon the Orinoco, to the same class of man. Tis true they did not live upon a frontier, except the ever shifting barrier between the old world and the new, or that which just as constantly is changing its position and its course, betwixt our modern life and medievalism. Still, these are frontiers just as well marked indeed as those that arbitrarily separate two countries in fact, are really better far defined. As I read on about the semi-Gnostic and his adventures of the spirit, and the adventurous lives his followers led, although they too, or most of them, were deeply tinged with either superstition or religion for who shall say where the one ends and his twin brother starts? I felt Braceras Sertao may be translated highlands, though that does not entirely give the sense of the word, which infers what we call back lying in Scotland. It is a high plateau, covered with scrub. The mark over the a, called til in Portuguese, gives a nasal sound, almost as if the word were written Sertawn. About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology. Forgotten Books Cla
